

SELF INTRODUCTION

My name is Nandini, and I am a Computer Science student at Bapatla Women's Engineering College. I am passionate about technology and its ability to solve real-world problems. Throughout my academic journey, I have been developing strong foundations in programming, data structures, and software development. I am particularly interested in exploring emerging technologies and continuously improving my technical and analytical skills.

I am a quick learner, adaptable to new environments, and enjoy working both independently and as part of a team. My goal is to build a successful career in the tech industry where I can contribute to innovative projects while continuously learning and growing professionally.
